

CONTROLLED DOSE CONCENTRATES

Control costs and eliminates waste. The Vmix range of controlled dose concentrates gives you all the cost-effective cleaning power you need in one neat little package.

A single bottle of 1 litre concentrate achieves significant cost-per-use savings compared to standard 5 litre bottle products, yet weighs less, is easier to store, easier to handle and more environmentally friendly to transport.

Most importantly, there's no chance of pouring money away through incorrect dosage. A simple 10ml squeeze-and-fill chamber eliminates product wastage and ensures accurate dosing first time, every time.

The handy-size 1 litre bottle will fill up to 100 triggers or 50 buckets. Vmix bottles are easy to pour and store.

Benefits of using vMix Super Concentrate

IN USE PERFORMANCE

Vmix is specifically formulated as a super concentrate, you only need 4L of VMix to make 1,000L of active in use product.

Standard bottle 4x5L pack 1:40 ratio - 25L per 1,000

Vmix 6x1L pack 1:250 ratio - 4L per 1,000

SPACE

Vmix 6x1L bottle packs are an efficient use of valuable storage space, are smaller, cost less to transport and are easy to handle.

Standard bottle 4x5L pack - 1.1m2

Vmix 6x1L pack - 0.57m2

DOSING WASTE

Standard 5L bottles waste an average of 14% of product for each case ordered. Vmix has an accurate dose control system ensuring exactly 10ml of product is dosed.

Standard bottle 4x5L pack - 2.7L

Vmix 6x1L pack - 0.0L

PACKAGING WASTE

Smaller Vmix bottles require less external packaging meaning you have less waste to dispose of.

Standard bottle 4x5L pack - 1,108g

Vmix 6x1L pack - 794g

WEIGHT

Vmix packs are easier to manually handle.

Standard bottle 4x5L pack - 21kg

Vmix 6x1L pack - 7kg
